

RITESH MARUTI NOUKUDKAR

Data Analyst | SQL · Python · Power BI & DAX · AI-Assisted Analytics

Maharashtra, India • +91 90671 40037 • riteshnoukudkar@gmail.com • [LinkedIn](#) • [GitHub](#)

PROFESSIONAL SUMMARY

Data Analyst with internship experience in data validation, exploratory data analysis, and business intelligence reporting using SQL, Python (Pandas, NumPy), Power BI, and DAX. Built automated validation workflows that maintained 100% data integrity across 5+ client applications and cut manual processing effort by 30%, and applied AI-assisted and GenAI-supported analysis to speed up EDA and reporting by 20–30%. Comfortable turning messy, multi-source data into clean models, KPI dashboards, and findings that non-technical stakeholders can act on.

TECHNICAL SKILLS

Analytics & BI: SQL (Joins, Subqueries, CTEs, Window Functions, Stored Procedures), Power BI, DAX, Tableau, Advanced Excel (Pivot Tables, Power Query, XLOOKUP), KPI Reporting, Dashboarding, Data Modeling

Programming & Data: Python (Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn), Data Cleaning, Data Validation, ETL Workflows, EDA, Statistical Analysis, Java, JavaScript, C

AI & GenAI: LLM-Assisted Analytics, Prompt Engineering, GenAI Tools (ChatGPT, Copilot), NLP & Sentiment Analysis, Predictive Analytics, Machine Learning Workflows, AI-Assisted Automation

Databases & Tools: MySQL, SQL Server, SQLite, Oracle, Query Optimization, Database Design, Git, GitHub, VS Code, Jupyter, Postman, MS Office

Practices: Data Quality Assurance, Data Storytelling, Stakeholder Reporting, Agile/Scrum, SDLC, Requirements Analysis, Technical Documentation

PROFESSIONAL EXPERIENCE

Data Analyst Intern — Oasis Infobyte

Jul 2026 – Aug 2026

Remote (Virtual Internship)

- Cleaned, transformed, and validated raw datasets using Python (Pandas, NumPy) and SQL, improving data accuracy by ~25% by resolving duplicates, null values, and formatting errors before reporting.
- Performed exploratory data analysis supported by LLM-assisted workflows and prompt engineering to surface trends, outliers, and inconsistencies, reducing analysis turnaround time by ~20%.
- Designed interactive Power BI dashboards with custom DAX measures to track business KPIs, cutting manual reporting effort for stakeholders by ~30%.
- Reconciled figures across multiple source systems using SQL and Advanced Excel, raising reporting reliability and data consistency by ~20%.

Software Development & Automation Intern — Data Validation & Process Automation

Jun 2025 – Jul 2025

Crientors Automation Solutions Pvt. Ltd., Belagavi

- Engineered Python data-validation modules and integration tests that maintained 100% data integrity across 5+ client applications.
- Automated cleaning, transformation, and validation pipelines in Python, reducing manual processing overhead by 30%.
- Diagnosed and resolved data inconsistencies across application pipelines through structured root-cause review, reducing rework by 20%.
- Partnered with cross-functional and global teams on requirements analysis and technical documentation within Agile sprint cycles.

PROJECTS

Sentiment Analysis | Python, NLP, Scikit-learn, Pandas — Built an NLP pipeline covering text cleaning, tokenization, and feature engineering to classify customer sentiment and convert review data into actionable insight.

Retail Sales EDA | Python, Pandas, NumPy, Matplotlib, Seaborn — Cleaned and analyzed retail transaction data, handling missing values and duplicates to reveal seasonal sales trends and customer purchasing behavior.

Customer Segmentation | Python, Pandas, EDA, Statistics — Segmented customers by purchase behavior and value to build profiles that support targeted retention and marketing decisions.

DreamPlay AI | Python, JavaScript, Phaser.js, GenAI — Developed an AI-assisted 2D game generation system using prompt-driven workflows, object-oriented design, input validation, and error handling; awarded Best Project at PROTO2PROD.

EDUCATION

B.Tech, Computer Science Engineering — Sant Gajanan Maharaj College of Engineering, Mahagaon

2026

Higher Secondary Certificate (HSC) — 62% (2022)

Secondary School Certificate (SSC) — 85.20% (2020)

CERTIFICATIONS & ACHIEVEMENTS

IBM Data Analyst Professional Certificate | Tata GenAI-Powered Data Analytics Job Simulation | SQL Server Foundations — ScholarHat | Agile Management — HP LIFE | TCS iON Young Professional | AI-ML Virtual Internship — EduSkills

Best Project — PROTO2PROD (DreamPlay AI) | PCI Competition Achievement | Peer-Reviewed Research Publication — [IJARST](#)
