

RITESH MARUTI NOUKUDKAR

Aspiring Associate Software Engineer

Kolhapur, Maharashtra, India | +91-9067140037 | riteshnoukudkar@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Computer Science graduate with hands-on software development experience in Python, Java, JavaScript, and React, gained through internships and applied projects spanning full-stack development, data pipelines, and automation. Skilled at writing clean, testable code, debugging across the stack, and collaborating in Agile, cross-functional teams to ship reliable software on tight deadlines. Strong problem-solving mindset with a proven ability to learn new technologies quickly.

CORE COMPETENCIES

Software Development • Full-Stack Development (React) • Object-Oriented Programming • Data Structures & Algorithms • Debugging & Testing • Machine Learning & AI Fundamentals • Generative AI & Prompt Engineering • Data Cleaning & Preprocessing • Predictive Analytics • Agile/Scrum • Cross-Functional Collaboration • Fast-Paced, Deadline-Driven Delivery

TECHNICAL SKILLS

- **Languages & Frameworks:** Python, Java, JavaScript, React, C, HTML/CSS, Pandas, NumPy, Scikit-learn
- **AI & Machine Learning:** Machine Learning Fundamentals, Generative AI, Prompt Engineering, NLP, TensorFlow/Keras (basics), AI-assisted development (GitHub Copilot, ChatGPT)
- **Databases & BI:** SQL, MySQL, SQL Server, SQLite, Oracle, Power BI, DAX, Tableau, Excel
- **Tools & Practices:** Git, GitHub, VS Code, Postman, REST APIs, Agile/Scrum, SDLC, Technical Documentation

PROJECTS

DreamPlay AI (Python, JavaScript, Phaser.js, OOP) — [Project Link](#)

- Built an AI-assisted 2D game generation system using object-oriented design, input validation, and error handling; awarded Best Project Category at PROTO2PROD.

Sentiment Analysis (Python, Scikit-learn, NLP) — [Project Link](#)

- Built an end-to-end NLP pipeline with text preprocessing and feature engineering to train a classification model, uncovering insights to support data-driven decisions.

Retail Sales EDA & Customer Segmentation (Python, Pandas, NumPy, Matplotlib) — [Project Link](#)

- Cleaned and analyzed retail datasets, handling missing values and duplicates to segment customers and surface actionable sales trends.

EXPERIENCE

Data Analyst Intern (Virtual) — Oasis Infobyte

Jul 2026 – Aug 2026

Remote

- Built Python (Pandas, NumPy) and SQL scripts to clean, preprocess, and transform raw datasets, improving data accuracy by ~25%.
- Applied AI-assisted exploratory data analysis to uncover key trends, improving insight discovery speed by ~20%.
- Developed interactive Power BI dashboards with DAX to track KPIs, reducing manual stakeholder reporting time by ~30%.

Software Development & Automation Intern — Crientors Automation Solutions Pvt. Ltd.

Jun 2025 – Jul 2025

Belagavi, India

- Engineered data-validation modules and integration tests in Python, achieving 100% data integrity across 5+ client applications.
- Automated data cleaning, processing, and validation workflows, reducing manual processing overhead by 30% and rework by 20%.
- Collaborated with cross-functional teams on requirements analysis and technical documentation within Agile sprint cycles.

EDUCATION

B.Tech, Computer Science & Engineering — Sant Gajanan Maharaj College of Engineering

2026

Higher Secondary Certificate (HSC) — 62%

2022

Secondary School Certificate (SSC) — 85.20%

2020

PUBLICATION

Peer-Reviewed Research Publication — International Journal of Advanced Research in Science, Communication and Technology (IJARSCT) — [View Publication](#)

CERTIFICATIONS & ACHIEVEMENTS

IBM Data Analyst Professional Certificate • Data Analysis Using Python — Tata GenAI Powered Data Analytics Job Simulation • AI-ML Virtual Internship — EduSkill • Agile Management — HP LIFE • TCS iON Young Professional • SQL Server Foundations — ScholarHat • Best Project Category — PROTO2PROD (DreamPlay AI) • PCI Competition Achievement
